Key qualifications:

Professor Akgun is a Professor of Public Health in Baskent University School of Medicine and University of North Carolina-Pembroke, USA with more than 35 years of strong experience in data management, statistical analyses, quality and accreditation in health care, patient safety and epidemiological studies including the assessment of burden of diseases and health and nutritional status indices. She is also a quality expert and serving Baskent University as their Chief Quality Officer for the 10 hospitals, 16 hemodialysis centers that belong to the University since 1997. During the past 20 plus years, Professor Akgun has been serving as a consultant in health sector reform projects, system assessments, and quality in health care, accreditation, gap analyses and performance measurements.

The variety of research topics she has addressed with collaboration of several international technical supports demonstrates the wide scope of her interests in public and migrant health and her commitment to a comprehensive and holistic approach to health issues. She serves many European, Turkish and international organizations as their advisor on healthcare reform, quality in health care, accreditation in health and higher education, migrant health, community nutrition, system assessment and monitoring. She led a number of projects in the Middle East and Mediterranean Region (Saudi Arabia, Syria, Kuwait, Jordan, and Turkey); Central Asia (Kyrgyzstan, Kazakhstan and Azerbaijan) and Europe including projects supported by World Bank, EU and WHO on system reform and evaluation of alternative care delivery models and mechanisms, performance assessment, hospital surveying, patient care outcomes assessment, migrant health, burden of disease among many more such projects.

She has also worked as an epidemiologist at WHO/EURO Health Care Policies office, responsible from Central Asian Republic countries and accumulated considerable experience performing data management, system assessment, capacity building and performance measurements of variety of healthcare facilities in Azerbaijan, Kyrgyzstan and Kazakhstan.

She serves a number of European, Turkish and international organizations as their advisor on public health, migrant health, quality in health care and patient safety and system development, data management and evaluation and monitoring and delivered hundreds of workshops and seminars on quantitative research design, implementation and analysis, Burden of Disease methodology, quality in health care and accreditation, patient safety and performance improvement to multiple health professional groups in Azerbaijan, India, Saudi Arabia, Jordan, Kuwait, Germany, Pakistan and some other countries.

In her recent experiences,

1. Leading a country-wide project in Azerbaijan, Professor Akgun developed a national quality system for healthcare facilities and completed a country-wide accreditation and licensing system.
2. She worked as a lecturer for the University of Oklahoma Health Sciences Center at its master programs on quality and accreditation in healthcare for Ministry of Health, Kingdom of Saudi Arabia (KSA). She was a consultant for AGI Consulting, LLC, Oklahoma and assisted more than 30 hospitals in KSA, Kazakhstan, Jordan and Turkey during their Joint Commission International Accreditation (JCIA) processes.
3. Professor Akgun carried out a project for the Turkish Ministry of Health calculating the burden of 486 diseases and sequels on the economics of the healthcare system in the country in collaboration with the WHO. In this project, she was Director of Epidemiology Unit and performed World Health Survey, which was carried out in a representative sample of Turkey with 12,000 Households, verbal autopsy survey, secondary data collection and estimation of YLL, YLD and DALY measurements, risk factor analysis and projections.
4. She performed another major project to assess and calculate the epidemiological and economic impact of Hepatitis B and C Viruses in Turkey with Turkish Ministry of Health and also completed a similar project on the epidemiological and economic impact of Hepatitis C Virus on healthcare systems in 16 Eastern European countries for CEPS, Brussels..
5. She worked as a project manager for Oklahoma University, School of Public Health and AGI Consulting, LLC, for the development of 5- years strategic plan for rural health development program, Al Gharbia Medical Region – Abu Dhabi, United Arab Emirates in the year 2010. In this assignment she was responsible in capacity assessment and planning and performing full assessment on service delivery models and options and development of physician and staffing plans at all Western MR Facilities.
6. She has PhD in Community Nutrition and been selected as an evaluator in 2000, to evaluate the proposals submitted in response to the call EU F5-F7 Frameworks, Food Quality and Safety, Public Health, EIT-Health and Nutrition, COST and Marie Curie by the European Union Commission and since then evaluating many EU projects under different topics for European Commission, Canadian Research Institute, La Caixa-Spain Research Institute, Romanian Scientific Institute etc.
7. She is also working temporarily as an adviser to Turkish Ministry of Health for the development of strategic planning on patient and employee safety and patient and family right issues.

Dr. Akgün is also an experienced in;

- Master Trainer on different topics of occupational safety and health. Providing mandatory training on occupational safety and health to various groups (Doctors, safety officers etc.) and also working as trainer of trainees.
- Expert, evaluator of projects submitted to European Commission under FP5-7, Horizon 2020, Marie Curie, COST, CIHR-Canadian Institutes of Health Research, MONTREAL CANADA and Romanian Scientific Institute, ROMANIA
- Master Trainer on different topics of total quality management issues such as implementation of CQI models in health care facilities like ISO 9001; 2000 version, EFQM module and JCI accreditation standards
- Expert; ISO 14001 Environmental Management System, HACCP, ISO 22000 Food safety management systems, OHSAS 18001 Occupational Health and Safety Assessment Series and ISO 15189:2003 Medical laboratories - Particular requirements for quality and competence.
- Surveyor and internal auditor of ISO 9001, 2000 QMS, HACCP, ISO 22000 Food safety management systems, OHSAS 18001 Occupational Health and Safety Assessment Series EFQM module and accreditation standards
- Methodology of patient and employee satisfaction, quality of care and utilization surveys, process and outcome management surveys, problem solving techniques etc. for health personnel and
- Monitoring and evaluation specialist. Participatory appraisal of ongoing health related projects and training program
- Quantitative research design, implementation and analysis,
- Need assessment studies (e.g. health needs and health care demands of specific population groups,
- Member of advisory committee on Prevention and Control of Type II Diabetes Mellitus and member of working group on Prevalence and Risk factors for DM, Ministry of Health, Turkey
- Coordinator, Turkish Health and Nutrition Survey 2016-2019
- Country coordinator on a DG Sanco project on " Information network on good practice in health care for migrants and minorities in Europe", acronym: MIGHEALTHNET. Public health actions to address wider determinants of health: social determinants of health", Program of Community action in the field of public health (2003-2008), Turkey representative, member of management committee on " Information network on good practice in health care for migrants and minorities in Europe, Turkey representative, member of management committee and researcher of 7 working group members.

- Principal Investigator, Epidemiological and Economic Impact of HCV in CIS and CEE countries
- Principal Investigator, Epidemiological and Economic Impact of HCV in Turkey
- Principal Investigator, Turkish Health and Nutrition Survey, Ministry of Health, Turkey
- Unravelling Data for Rapid Evidence-Based Response to COVID-19 Project, EU Project, Principal Investigator, Turkey

Providing Training on the Following Courses

Undergraduate courses:

Public Health, Faculty of Medicine, School of Health and Health Care Management, School of Nursing, School of Physiotherapy and Rehabilitation
Epidemiology, Faculty of Medicine, School of Health and Health Care Management, School of Nursing, School of Physiotherapy and Rehabilitation Quantitative Research Methodology, Faculty of Medicine, School of Health and Health Care Management, School of Nursing, School of Physiotherapy and Rehabilitation

Graduate courses:

- Quality in Health Care, Baskent University Health Science Institute, PublicHealth MSc Courses
- Public Health, Baskent University Health Science Institute, Public Health MSc Courses
- Principles of Epidemiology, Baskent University Health Science Institute, Physiotherapy and Rehabilitation and Public Health MSc Courses
- Research Methodology, Baskent University Health Science Institute, Physiotherapy and Rehabilitation and Public Health MSc Courses
- Community Nutrition, Baskent University Health Science Institute, PublicHealth MSc Courses
- Biostatistics, Baskent University Health Science Institute, Physiotherapy and Rehabilitation and Public Health MSc Courses
- Baskent University, Faculty of Medicine, instructors training courses Principles of Epidemiology, Research Methodology, Biostatistics, Community Nutrition, Public Health
- Accreditation in Health Care and Higher Education

German Academic Exchange Service DAAD, Bielefeld University, Germany, Jawaharlal University, India and Baskent University Public Health Department. “e-learning in Public Health” Teaching;

- International Health
- Burden of Disease
- Continuous Quality Improvement,
- Accreditation in Health Care
- Patient Safety,
- Employee Safety
- Accreditation in Higher Education

In addition, lecturing on continuous quality improvement principles, models and techniques, accreditation in health care, ISO 9001; 2008 version quality management system, ISO 14000 Environmental management system, ISO 22000 HACPP Food Quality and Safety System, EFQM Quality System.

Lecturing on Occupational Health, Risk Management, Risk Assessment,

Publications (selected) International Books and Book Chapters:

Book
